

Industrial Visit Insight: Vita Plant, Rohtak

Bright Scholar Senior Secondary School facilitated an educational journey to Vita Plant, Rohtak, on March 27, 2024, to merge theoretical learning with practical exposure. Students delved into the plant's core operations—milk collection, pasteurization, quality checks, and packaging, along with ghee, butter, and flavored milk production. Interacting with HRs and employees enriched their understanding, igniting curiosity and innovative thinking. This visit exemplified the application of classroom knowledge to industrial environments, underlining the value of experiencing industrial processes firsthand.
