

Tech-Savvy Students Shine in Digital Skills Activities!

Students from Classes III to V participated enthusiastically in a series of activities aimed at enhancing their digital proficiency and creativity.

The PowerPoint Presentation Activity for Classes IV and V, held on December 5th and 6th, focused on Artificial Intelligence (AI) topics. Class IV explored Voice Assistants, while Class V delved into Chatbots, impressing everyone with their engaging slides and innovative ideas.

On December 4th, Class III demonstrated their skills in an MS Word Formatting & Editing Activity, showcasing creativity and precision in document design.

These activities provided a fantastic platform for students to explore technology and develop essential skills. Kudos to all for their remarkable efforts
